

TemplateDotNetTool

TemplateTool-CLI-Review

1. Introduction

1.1 Purpose

This document records the formal review of a set of project files.

1.2 Scope

This review covers the 'TemplateTool-CLI-Review' of TemplateDotNetTool.

1.3 Outcomes

Each check must be recorded with one of the following outcomes:

Outcome	Meaning
Pass	The check was performed and the criterion is satisfied
Fail	The check was performed and the criterion is not satisfied
N/A	The check does not apply; justification is required

1.4 Review Details

Field	Value
Project	TemplateDotNetTool
Review ID	TemplateTool-CLI-Review
Review Title	Review of Template DotNet Tool CLI
Fingerprint	59ef7023337d401242fe17092dc134e075ba5c2720ab7d46685986c91adc081c
Review Date	2026-03-11

1.5 Reviewers

Name	Role	Organization	Signature	Date
Malcolm Nixon	Review Lead	DEMA Consulting		
GitHub Copilot	AI Agent	GitHub	N/A	N/A

1.6 Files Under Review

File
src/DemaConsulting.TemplateDotNetTool/Context.cs
src/DemaConsulting.TemplateDotNetTool/Program.cs
test/DemaConsulting.TemplateDotNetTool.Tests/ContextTests.cs
test/DemaConsulting.TemplateDotNetTool.Tests/ProgramTests.cs

2. Review Checklist

2.1 Requirements Checks

Applicable: No

No requirements under review

TemplateDotNetTool

TemplateTool-CLI-Review

#	Check	Outcome	Justification
REQ-01	All requirements have a unique identifier	N/A	No requirements under review
REQ-02	All requirements are unambiguous (only one valid interpretation)	N/A	No requirements under review
REQ-03	All requirements are testable (compliance can be demonstrated by a test)	N/A	No requirements under review
REQ-04	All requirements are consistent (no requirement contradicts another)	N/A	No requirements under review
REQ-05	All requirements are complete (no TBDs, undefined terms, or missing information)	N/A	No requirements under review
REQ-06	All requirements are verifiable (can be objectively confirmed as met or not met)	N/A	No requirements under review

2.2 Documentation Checks

Applicable: No

No documentation under review

#	Check	Outcome	Justification
DOC-01	Documentation is free of technical inaccuracies	N/A	No documentation under review
DOC-02	Documentation is consistent with the current implementation and requirements	N/A	No documentation under review
DOC-03	All referenced external documents and dependencies are correctly identified	N/A	No documentation under review
DOC-04	Documentation is free of spelling and grammar errors	N/A	No documentation under review

2.3 Code Checks

Applicable: Yes

#	Check	Outcome	Justification
CODE-01	Code conforms to the project coding standards and style guide	Pass	N/A
CODE-02	No obvious security vulnerabilities are present (e.g., injection flaws, hardcoded credentials)	Pass	N/A
CODE-03	Error conditions and unexpected inputs are handled appropriately	Pass	N/A
CODE-04	No obvious resource leaks are present (file handles, connections, memory)	Pass	N/A
CODE-05	No hardcoded values are present that should be configurable	Pass	N/A
CODE-06	No debug artifacts or commented-out code have been left in the codebase	Pass	N/A

2.4 Testing Checks

Applicable: Yes

#	Check	Outcome	Justification
---	-------	---------	---------------

TemplateDotNetTool TemplateTool-CLI-Review

TEST-01	Tests cover expected (happy-path) behavior	Pass	N/A
TEST-02	Tests cover error conditions and boundary cases	Pass	N/A
TEST-03	Tests are independent and repeatable (no shared mutable state, no ordering dependency)	Pass	N/A
TEST-04	Test names clearly describe the behavior being verified	Pass	N/A

2.5 Requirements vs Documentation Checks

Applicable: No

No requirements under review

#	Check	Outcome	Justification
REQDOC-01	All requirements under review are addressed in the documentation	N/A	No requirements under review
REQDOC-02	No requirement is contradicted by the documentation	N/A	No requirements under review

2.6 Requirements vs Implementation Checks

Applicable: No

No requirements under review

#	Check	Outcome	Justification
REQIMP-01	All requirements under review are addressed by the implementation	N/A	No requirements under review
REQIMP-02	No requirement is contradicted by the implementation	N/A	No requirements under review

2.7 Requirements vs Testing Checks

Applicable: No

No requirements under review

#	Check	Outcome	Justification
REQTEST-01	Every requirement under review is covered by at least one test	N/A	No requirements under review
REQTEST-02	Tests verify the behavior described in each requirement	N/A	No requirements under review

2.8 Code vs Documentation Checks

Applicable: No

No documentation under review

#	Check	Outcome	Justification
CODEDOC-01	All public APIs and interfaces are documented	N/A	No documentation under review
CODEDOC-02	Non-obvious algorithms and significant design decisions are explained	N/A	No documentation under review

3. Conclusion

3.1 Summary of Findings

List any checks recorded as Fail, and any observations that do not constitute a failure but should be noted for the project record:

#	Check	Finding
N/A	N/A	N/A

3.2 Overall Outcome

Overall Outcome: Pass

All applicable checks satisfied.
